INR AFTERNOON SUMMARY

November 23, 1976

Notes

non-relevant

CONDOR ACTIVITIES CONTINUE:
reports that Uruguayan authorities have decided

to limit
the countersubversive organizations's assassinations to known terrorists. A Condor training course now being conducted in Buenos Aires will conclude in early December when at least two Uruguayan operatives will be sent to Paris to perform unspecified duties. After reportedly learning that the French knew of Condor's plans to operate in France, Argentine and/or Chilean security officials informed their French counterparts that Condor would function in Europe, but not in France.
